I Have a Question: 72 Fabulously Fun Experiments You Can Do at Home to Learn the Science of the World Around Us (Paperback)

By Caryl M Lieberman

Xlibris Corporation, United States, 2007. Paperback. Book Condition: New. 224 x 150 mm. Language: English . Brand New Book ***** Print on Demand *****.Heat is a form of energy. From a gentle breeze to a powerful explosion, it makes things move, and it travels from place to place. Water--a precious resource--exists as solid, liquid, and gas. It moves continuously through the water cycle, evaporating into the air from the oceans, condensing into clouds, and returning to earth through precipitation. Air--although invisible, it is real and all around us. Air pressure helps us breathe and to lift an airplane. Light is energy that travels from the sun. Because there is light we can see; and plants, which are at the bottom of the food chain, can live and grow. Sound is also a form of energy. It allows us to produce and have music, communicate with each other, and measure the depth of oceans. In I HAVE A QUESTION, veteran science educator Caryl Lieberman gives readers 72 science experiments you can do at home using everyday materials. If you've ever wondered: . Why does the wind blow? . How does a thermometer work? . Why does ice melt? . What...
