

## Schweizerisches Jahrbuch (1 )

By -

RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 420 pages. Original publisher: Gaithersburg, MD : U. S. Dept. of Commerce, National Institute of Standards and Technology, 2007 OCLC Number: (OCoLC)714139940 Subject: Fire -- Mathematical models. Excerpt: . . . 1 REI 4714 A Computational Model For Fire Growth and Spread On Thermoplastic Objects 1. BACKGROUND 1. 1 Introduction This report describes the work effort by Reaction Engineering International ( REI ) to develop, demonstrate and deliver to the National Institute of Standards and Technology ( NIST ) a condensed phase computational fluid dynamics ( CFD ) based tool to model the processes of melting, flow and gasification of thermoplastic materials exposed to a high heat flux. This work effort is in response to NIST solicitation PWS SB1341-05-C-0041. Potential applications of the tool include investigating the behavior of polymer materials commonly used in personal computers and computer monitors if exposed to an intense heat flux, such as occurs during a fire The condensed phase CFD ( CPCFD ) model delivered to NIST is based on a time dependent ( time varying ) grid CFD method. The time dependent grid CFD model provides a rigorous approach, enabling detailed...

### Reviews

*This publication is definitely worth buying. It can be loaded with wisdom and knowledge I am easily could possibly get a satisfaction of looking at a composed publication.*

-- **Rhiannon Steuber**

*Very helpful to all type of individuals. It really is rally interesting throgh looking at time. Its been designed in an extremely basic way which is just soon after i finished reading this pdf through which basically modified me, change the way i believe.*

-- **Tyshawn Brekke**
