After 20-Apr-19 modified set of procedures for optical property measurements described Daughtry et al. (1989) was used. The sample mount was attached to a r aperture the size of the illumination light source beam. This assembly wa the light table underneath an image analysis systems camera. The image captured and the gap area measured by counting the number of whitish area was ratioed to the total area of the incident beam (i. e. , the area of to give the gap fraction (area of nonintercepted illumination beam). Th was then placed in the...

Reviews

This book may be really worth a read through, and a lot better than other. It is really basic but excitement inside the 50 % in the pdf. I realized this pdf from my dad and i encouraged this publication to learn.

-- **Curtis Bartell**

The book is straightforward in study better to comprehend. It is really simplistic but unexpected situations in the fifty percent of the ebook. Its been written in an exceptionally simple way which is simply after i finished reading through this ebook in which basically altered me, affect the way i really believe.
