The observation number for the work done at Mexico in 1897 is made continuous with that at Flagstaff in 1896, to avoid confusion in reference. The date in Greenwich Mean Time follows the number. On. the same line as the date, are given the observer, the longitude of the center, the seeing and the power. Beginning below the hours are the notes. Canals and oases are placed in a special column and remarks about particular canals are placed to the right. Attention is called to the following special features in these lists: --1. The notes have nearly the words of the original but are not meant to be verbatim. Corrections or explanatory remarks are often added in parenthesis. 2. Canals in the dark regions are distinguished by being marked with a star. 3. The words A polar boundary after a canal mean that the identification is good. As a polar boundary means that the canal is disconnected with others and the identification is less certain. Polar Boundary in the list of canals means that the boundary line is not identified as any canal. 4. When two or more canals are drawn as one continuous line, the first one given in the list is followed by a dash. 5. When two canals run side by side and the space between is dark, --that is, the canals, usually separate, are boundaries of a dark mark, --the canals are bracketed on...
